

## Bugs

# Bee ID

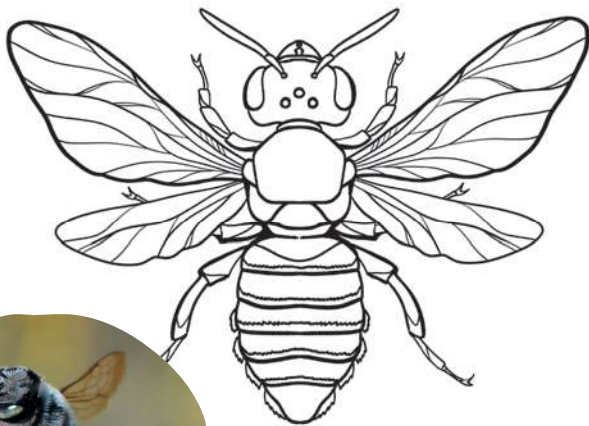

There are about 320 bee species native to Alberta! Examine the **Alberta Native Bee Council's** drawings and photos of four common species, then colour them. Next, head outside to see if you can find any of the species you learned to identify!

*Osmia*  
Mason Bee

*Bombus*  
Bumble Bee

*Megachile*  
Leafcutter Bee

*Agapostemon*  
Green Sweat Bee
